

Nitrox Specialty

Why dive Nitrox?

To increase your bottom time, and reduce the risk of Decompression Sickness. Diving Nitrox is a great benefit for divers on a dive vacation doing multiple dives per day, as it can greatly reduce fatigue. Nitrox allows you to spend longer periods of time at depth, with shorter surface intervals.

Once you successfully complete the course; you will have an in depth knowledge of diving enriched air. You will be able to plan a Nitrox dive using the Nitrox Tables, and understand the procedures for EANx diving, and why they're necessary.

When? October 11th @ 10 a.m.
Where? UWSAI
Cost? \$155.95

Yes! Sign me up for the NITROX Specialty
